Aisemont welcomes schools from the area - May 15th, 2009

In the framework of the European Days of Mineral Industry (www.mineralsday.eu) which took place in 160 plants throughout 22 European countries and 5 countries in the rest of the world on May 15th – 17th, 2009.

Carmeuse welcomed in its Aisemont' plant, children from schools of Aisemont, Le Roux (Fosses-la-Ville) and Arsimont (Sambreville).

During that visit, some 50 pupils of 5th and 6th primary school accompanied by their teacher have been in contact with our company, they participated to several laboratory's tests, they discovered the width of the quarry, they were explained how Carmeuse prepares blasts and they got information about lime and limestone and its applications in their everyday life.

The Carmeuse Group is a leading global producer of lime, with more than 140 years of experience in the extraction and processing of high calcium limestone and dolomitic stone into lime and lime-related products for many different industrial customers.

Lime is used in multiple aspects of our everyday life (steel, construction, agro-food, paper, chemicals, plastics, carpets, paints, pollution control, water treatment, ...).

Carmeuse is present in about 90 locations across Western Europe (in Italy, Belgium, France and the Netherlands), Central and Eastern Europe (Slovakia, the Czech Republic, Hungary, Romania, Bosnia and Turkey) and North America
