

Carmeuse Majan

Dedicated to setting the standard in total lime solutions in Asia and Middle East

Carmeuse Majan, located in Oman's Salalah Free Zone, is a joint venture operated by Carmeuse Group, the **leading global producer of lime and limestone products** that provide high-performance, cost-effective, and environmentally friendly attributes and benefits for a broad range of applications.

We aim to be recognized as the region's premier supplier of lime. With direct access to some of the best limestone deposits in the Middle East and Asia, the proximity of the Salalah seaport and our state-of-the-art manufacturing infrastructure, we are the preferred lime partner of industrial customers in India, Oman, neighboring GCC countries and parts of Africa.

We are dedicated to setting the standard as the leader in total lime solutions. Our world-class packaging preserves the quality of our high grade quicklime during transportation and storage. Our logistics team works closely together with customers to implement the most efficient and reliable supply chain. Our application specialists help customers improving their processes, lime value-in-use and cost structure. Our network of plants provides customers with operational assurance.

Serving a myriad of markets that make our daily lives better

Carmeuse Majan lime solutions make air cleaner and water more pure. They make highways last longer. They enhance the whiteness of paper. They make steel stronger. And they are vital to non-ferrous metals processing, agro-food production and materials that build and renew infrastructure around the world.

World-class infrastructure connected to the world

Direct access to the best limestone deposits in the Middle East and Asia, a state-of-the-art lime calcination plant with a daily production capacity of 800 tonnes and the proximity of Oman's largest seaport: Carmeuse Majan is perfectly positioned to serve the most demanding industrial customers.

Quality preservation through best-in-class packaging

Carmeuse Majan lime is packed and delivered in 3 layer big bags that offer ease of handling and the ultimate in quality preservation, even under the most challenging conditions. Our heat treated pallets support optimal container unloading at the customer site.

A dedicated team at your service

Carmeuse Majan's multi-cultural and diverse team has a shared passion for quality, safety and working together towards one common goal: setting the standard as the leader in total lime solutions and serving the needs of our customers in the best possible way, every day.
