

FREIGHT & LOGISTICS

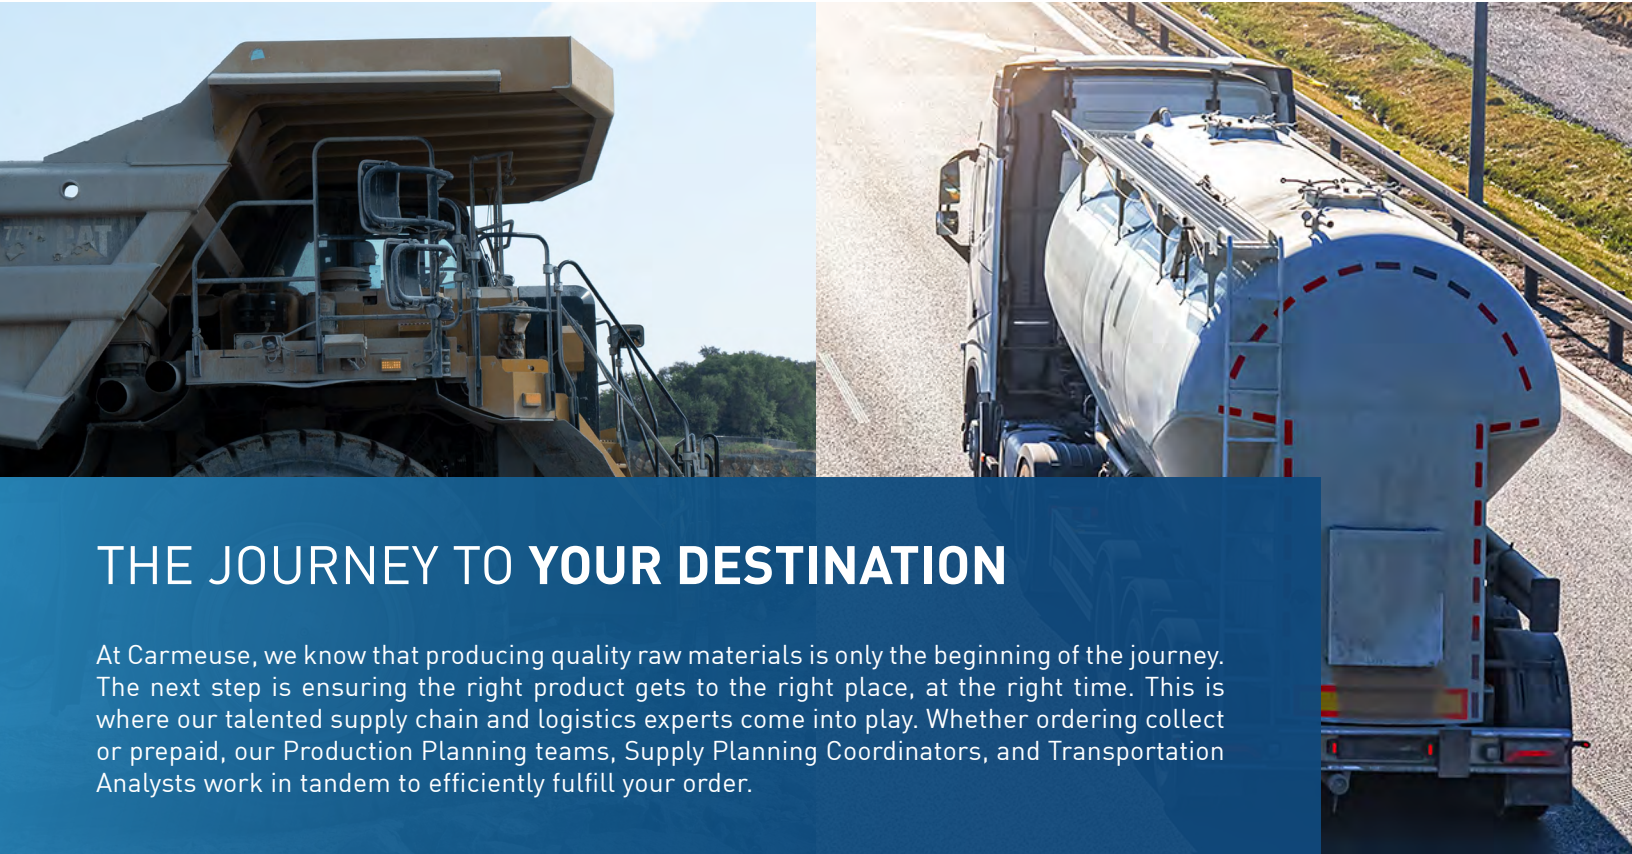

EFFECTIVE SOLUTIONS FOR YOUR TRANSPORTATION NEEDS

TRUSTED SUPPORT. EFFICIENT RESULTS.

When partnering with Carmeuse, you can feel confident that we will work to help find the best transportation solutions from our sites to your operation. As part of our End-2-End Services offerings, Carmeuse has the resources and expertise to get material where it needs to be quickly and efficiently, backed by our wide network of plants, terminals, and docks, strong carrier partnerships, and solutions-oriented support teams.

[WE CONTRIBUTE TO A BETTER WORLD]

THE JOURNEY TO YOUR DESTINATION

At Carmeuse, we know that producing quality raw materials is only the beginning of the journey. The next step is ensuring the right product gets to the right place, at the right time. This is where our talented supply chain and logistics experts come into play. Whether ordering collect or prepaid, our Production Planning teams, Supply Planning Coordinators, and Transportation Analysts work in tandem to efficiently fulfill your order.

RELIABLE SUPPLY NETWORK

Carmeuse Americas has 36 production facilities across the United States and Canada along with a broad network of supporting terminals and dock operations. This allows us to provide widespread availability of lime, limestone and mineral-based products to help keep your operation well-supplied and running smoothly.

Our goal is to get the right product, to the right location, when it is needed, and to let you focus on what moves your business forward.

- Large network of plants and terminals providing convenient and reliable supply
- Flexibility to source material from any plant, with your approval of material specifications
- Identifying opportunities to position Carmeuse products closer to your facilities
- Dock operations along the Great Lakes enabling efficient seaway or in-land access

STRONG CARRIER PARTNERSHIPS

We build and maintain close ties with local and national carriers across truck, rail, and barge lanes. In leveraging these partnerships, our teams can provide point-to-point support from our quarries to your site, or we can work in tandem with your logistics personnel to schedule and process orders.

- Strong relationships with qualified truck, rail, river and lake carriers to coordinate safe deliveries
- Managing critical carrier performance indicators to ensure we are meeting your requirements
- Analyzing logistic data and lane options to find efficient and cost-effective solutions

FAST & EFFICIENT SUPPORT

Need to place a last-minute order or coordinate a delivery after a carrier cancellation? Our teams are at your service.

- Emergency order processing and 24/7 support
- Convenient online ordering via the MyCarmeuse Portal

For expert support with raw material selection, lab services or lime storage and handling systems, ask us about our *End-2-End Services*.

Ready for a Freight Evaluation? Ask your Carmeuse representative about our transportation solutions.

OUR DOCK SERVICES

Carmeuse also operates several docks along the Great Lakes, with full services from our quarries to the lakes, docks, trucks, rail, and barges, and even out to the seaway. From providing aggregate and sand for construction projects, to bringing in heavy equipment or bulk materials to/from a lake vessel, we can support you.

Our docks have moved aggregates, sand, salt, furnace coke, wind turbine tower sections and even a gas-fired power plant. Our experienced workforce can provide port activities that include stevedoring, shipboard welding, rigging, lashing, lagging, equipment upgrades/rework and cargo management. Whether you are shipping nationally or internationally, our convenient locations and breadth of capabilities make us the right partner for you.

HOW WE MAKE IT HAPPEN

PRODUCTION PLANNERS

Our Production Planners work with customers to understand their material needs and determine which Carmeuse operation can best serve you. This critical role helps establish how much product each of our operations should produce to provide our reliable supply.

SUPPLY PLANNING COORDINATORS

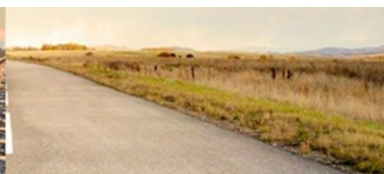

Our Supply Planning Coordinators provide direct 24/7 support to our customers for both collect and prepaid. From placing orders and scheduling trucks, to coordinating deliveries and helping with order processing, this expert team solves customer problems quickly and efficiently.

TRANSPORTATION ANALYSTS

Our Transportation Analysts partner with reliable carriers to support our customers' pre-paid shipments. Our teams help alleviate transportation issues, expedite shipments, find backhauls on lanes, and analyze data to get the best rates with our carriers:

- Dump Trucks
- Pneumatic Trucks
- Flatbed Trucks
- Rail
- Barging
- Lake Vessels

Our transportation teams also help position Carmeuse products closer to our customers for added flexibility and convenience. We do this by utilizing a network of rail to truck terminals to reduce replenishment lead times and increase product availability.

GETTING MATERIAL **WHERE IT NEEDS TO GO**

NEED ASSISTANCE WITH YOUR ORDER OR DELIVERY?

If you are already a Carmeuse customer, contact your Supply Planning Coordinator by calling 1-800-445-3930.

If you are a new customer, get started by contacting us at 1-866-780-0974 or emailing salesinquiries@carmeuse.com.
